

SAMPLE: ODDWALK CONCERTS

DESCRIPTION

Oddwalk concerts are put together differently depending on the makeup of the audience.

Our youngest crowds are no doubt the grade school groups we play for during Catholic Schools Week. These shows typically run 45-60 minutes. While we always communicate any theme our hosts ask us to, these concerts are typically designed to be fast-moving and high energy. The overarching theme of these events is the joy that comes with living for Jesus.

While the middle school concerts are certainly joyful affairs, we will take time in the midst of them to reflect upon where their Christian journeys have led them thus far and contemplate where they might be headed.

Concerts with adults-only or multi-generational audiences will feature music and reflections that are deeper than the shows put together for younger audiences, while maintaining a necessary joyful vibe.
